Senior Bullying: What is Happening in Ontario
(Prevalence Study)

A Partnership between Elder Abuse Prevention (Ontario) & Sheridan College
to better understand what is happening in Ontario, AND to use this data to create
a resource package outlining best practices for seniors and those working with
seniors to stop bullying.
Objectives of this Webinar:

• Introduce the Seniors Anti-Bullying Toolkit
• How it was developed
• How to use it
• Where to find it & When to find it
What is senior bullying?

“Bullying is sometimes called harassment and happens when someone hurts, intimidates or scares a peer consciously or unconsciously. When someone is being bullied they often have a hard time defending themselves. Bullying is usually not a one-time event. It can happen over and over again.”

This survey relates to bullying which is based on peer to peer interactions, and not perpetrated by a person who is in a position of trust.
PROJECT AIMS:

• Collect data on the prevalence and nature of Senior to Senior bullying in Ontario;

• Use this data to create a toolkit outlining best practices for seniors and those working with seniors to stop bullying.

Journal Prompts

Purpose:
Please use this journal prompt to reflect on your own experience. This journal is meant to be a personal reflective tool and not as a replacement for reporting.

1. If you witnessed a bullying incident this month, how did you respond?

2. Choose one or more of your responses and describe the outcome of this behaviour?

3. Were you able to de-escalate the situation? If so, what did you do?

4. What would you do differently if you had the chance to?

5. Is there someone or something that could have prevented this from happening? If so who or what?
Toolkit Design — Typography

To ensure that anti-bullying initiatives developed using this toolkit are sustainable it is recommended that activities and modules are regularly revisited. Multiple opportunities for discussion groups with stakeholders from each part of the organization are needed for education and engagement.

These discussions should be incorporated into various organizational events
Such as:
- Member’s council meetings
- Focus groups
- All staff meetings

In addition to including this as an item in existing meetings it is imperative to have a stand alone meeting specific to the topic of anti-bullying with all stakeholders. Frequent reiteration of anti-bullying efforts to all stakeholders involved helps them understand their role in the prevention of bullying behaviours.

Research shows that once established anti-bullying initiatives work best when all people within an organization are involved.

Therefore it is suggested that these efforts be introduced as early as orientation for any new staff, residents/clients, and volunteers.
