

## IMPORTANT MESSAGE FROM SONAMI REGARDING COVID-19:

SONAMI & its Partner Institutions are working to the best of our ability, within certain constraints, to deliver applied research goals as expected by our various stakeholders, including our valued industry partners.

Please note that because of the COVID-19 spread, our Partner Institutions have suspended all on-campus classes, and field work, while employees have been asked to work remotely as of March 16.

This also means that no outside visitors are allowed on the various Partner campuses at this time. We ask for your patience in the case of delay.

The most current public health guidelines have directed that people are to limit face-to-face meetings and our Partner Institutions are all abiding by that guideline, so these meetings may need to be postponed, or move them into a teleconference, email or online space.

Thank you for your flexibility in working with us on alternate delivery of these meetings. Many of us are working remotely during this time, and so we encourage you to be in touch by email ([camdt@sheridancollege.ca](mailto:camdt@sheridancollege.ca)) should you need any clarification or have any questions.

Thank you for your patience and understanding.
