

**English Proficiency
Assessment
Information Booklet**

<http://assessment.sheridancollege.ca>

What is the English Proficiency Assessment?

The English Proficiency Assessment is an assessment instrument used at Sheridan to evaluate the English language proficiency of applicants who have applied for admission to Sheridan programs.

The English Proficiency Assessment consists of the Institutional CanTEST for Reading and Listening, and a Sheridan-developed Writing Assessment.

The results of the English Proficiency Assessment administered at Sheridan are non-transferable and can be used exclusively for the purpose of admission to Sheridan programs. The results that you receive cannot be reported to any other institution.

Why do I need to take the English Proficiency Assessment?

Some applicants to Sheridan's programs are required to complete the English Proficiency Assessment to determine if they meet the admission requirements. The Admissions Office will send a letter to the applicants who must take the English Proficiency Assessment. Applicants who have valid TOEFL or IELTS results which meet the admission requirements maybe exempt from taking the English Proficiency Assessment. Applicants who choose not to take the English Proficiency Assessment and whose first language is not English would meet the language requirement for most Sheridan postsecondary programs by completing the General Arts and Science –English Language Studies –English for Academic Purposes program.

What is the Assessment Fee?

The fee for the English Proficiency is \$45.

The online payment instructions will be emailed to you prior to your testing appointment.

How can I book an appointment to write the test?

To book your pre-admission test, please click on the link that corresponds to your last name below:

Last Names A-H: www.hmcac.as.me

Last Names I-O: www.trafac.as.me

Last Names P-Z: www.davisac.as.me

Assessment Centre Contact Information:

Please email the Assessment Centre corresponding to your last name:

hmcac@sheridancollege.ca for last names starting with A-H

trafac@sheridancollege.ca for last names starting with I-O

davisac@sheridancollege.ca for last names starting with P-Z

Where and when can I take the English Proficiency Assessment?

Until further notice, all tests will take place virtually. Applicants will write the test from home while connected online to an Assessment Centre Specialist using conferencing software that enables screen sharing (Zoom).

If you are a student with a disability and **require accommodation in the assessment process**, you **must** be registered with Accessible Learning Services., please visit:

<https://www.sheridancollege.ca/student-life/student-services/accessible-learning-services>

What to bring?

- Valid Photo ID
- Please make sure that you have a testing requirement notification from Sheridan. You can also view it on your Student Portal. If you have not yet received this, please email admissions@sheridancollege.ca

(or international.sheridan@sheridancollege.ca if you are an international student, so that they can verify the name of the test with you).

Technical Requirements:

To ensure that your test runs smoothly, please check that your computer or laptop is equipped with the following technical components:

- A webcam
- Audio and headphones
- Google Chrome or Mozilla Firefox. Please do not use Safari.
- Windows 7, 8, 8.1, and 10; Server 2008 R2, 2012 (32 or 64-bit) with .NET 4.0 or higher and the latest updates **OR** The latest build of macOS: Yosemite (10.10), El Capitan (10.11), Sierra (10.12), High Sierra (10.13), Mojave (10.14), Catalina (10.15)
- Broadband connectivity to the Internet (i.e., T1, cable modem, ISDN or DSL)
- Audio Player (Windows Media Player or VLC) and Microsoft Word

How can I find out the results of my test?

To view your assessment results, please allow 2-3 business days for marking and:

1. Log in to your Sheridan Central through <http://central.sheridancollege.ca>
2. At the top of the page, click on myStudentCentre
3. Under the Admissions heading, click on 'Application Status'
4. Click on 'View Summary of Assessment Results'

What English language skills does the English Proficiency Assessment measure?

The English Proficiency Assessment measures three skills: Reading, Listening and Writing. The Reading and Listening skills are assessed through the Institutional CanTEST. The Writing skills are tested through a Sheridan-developed Writing Assessment. Each Assessment section is described briefly below.

Institutional CanTEST Reading

The Reading section consists of two parts:

Reading Comprehension, and Skimming and Scanning.

Reading Comprehension requires that you read three passages of 400-700 words, and answer multiple-choice and short-answer questions about them. You will also complete a cloze

section where you will choose the correct words to fill in the blanks in a passage.

You will have 50 minutes to complete the Reading Comprehension part.

Skimming and Scanning requires that you read quickly to find specific information in texts such as newspapers, university calendars, web pages, and bibliographies. You will have 10

minutes to complete 15 questions. There may be two types of questions: short answer and multiple-choice.

Institutional CanTEST Listening

In the Listening section you will listen, first, to three short dialogues and, second, to three longer passages; the passages last from about one to five minutes. Each passage is followed

by questions that are multiple-choice or that require a short answer. In the first part of the Listening section, you will hear the short dialogues only once. For this section, the questions

are recorded and are not printed in the test booklet; you will only see the answer choices. In the second part of the Listening test, you will hear each of the three passages twice.

The Listening section includes 40 questions and lasts 50 minutes.

Sheridan Writing Assessment

In the Writing Assessment, you will write a 300-350 word composition on a topic which will be given to you. The time limit for this section is 45 minutes.

What topics appear in the English Proficiency Assessment?

All Institutional CanTEST Reading and Listening material is taken from real documents such as newspapers, magazines, textbooks, and radio broadcasts. Topic areas include: agriculture, medicine, engineering, history, and education.

All the texts are intended for the general reader/listener. You do not have to be a specialist in any of these fields to answer the questions. In the Writing Assessment, essay topics are general and do not require specific knowledge.

How can I prepare for the English Proficiency Assessment?

In addition to reviewing the sample test questions printed in this booklet, you may also contact the Assessment Centre to take a practice English Proficiency Assessment.

Practice CanTEST Reading and Listening test material is also available for purchase at the cost of \$30. If you wish to purchase a CanTEST practice test booklet, please contact the Assessment Centre.

A course in academic English would also be good preparation for the English Proficiency Assessment.

You may find the following websites useful while preparing for your English test:

What do the English Proficiency Assessment scores look like?

The Reading and Listening scores, called Bands, tell you your level from 1 to 5. Please see below for Band descriptions.

In Writing, your composition is evaluated by a trained assessor according to Canadian Language Benchmarks (CLB) on the scale from 5 to 9. Please see below for Writing CLB descriptions.

Based on your English Proficiency Assessment results, the assessor may recommend eligibility for admission to:

- 1 Year Certificate or 2-3 Year Diploma program
- Graduate Certificate or Bachelor Degree program
- English as a Second Language program
- English for Academic Purposes program
- Academic Upgrading program

What scores do I need to pass?

For entrance to a 2-3 Year Diploma Program and/or to a 1 Year Certificate Program, the minimum language requirement is a score of Band 4.0 in the Listening and Reading sections, and a CLB 7 in the Writing section.

For entrance to a Graduate Certificate Program and/or Bachelor Degree, the minimum language requirement is a score of Band 4.5 or better in the Listening and Reading sections, and a CLB 8 or better in the Writing section.

Based on rough guidelines, you must answer 60-65% of the Assessment questions correctly to achieve Band 4, and 70-75% of questions to achieve Band 4.5.

If I don't pass, what are my options?

Students who do not pass their English Proficiency Assessment may choose to enroll in the English as a Second Language program at Sheridan. You may also choose to take the English Proficiency Assessment again. English Proficiency Assessment re-takes are allowed after three months. The test fee applies.

Descriptions of Band Levels: CanTEST Listening and Reading

5.0 Very Good User

Very good command of the English language, even in demanding contexts; high degree of comprehension; only occasional unsystematic inaccuracies and inappropriateness in communication, which very rarely impede communication. Level of proficiency is acceptable for full time academic study.

4.0 Competent User

Generally effective command of the English language in fairly demanding contexts, with a satisfactory level of comprehension. Some inaccuracy and misunderstanding in less familiar contexts with more complex language. Weaknesses exist which sometimes impede communication, and could affect performance in an academic program. Additional language training would be helpful to improve accuracy, speed, and overall proficiency.

3.0 Limited User

Fair command of the English language only in familiar language contexts or in interactions with a sympathetic speaker; limited comprehension; markedly reduced effectiveness in demanding and unfamiliar situations. Systematic inaccuracies and misunderstandings significantly impede communication and comprehension; additional language training is required before being considered for academic placement.

2.0 Very Basic User

Some ability to function in highly contextualized, familiar situations, but no real command of the English language; frequent breakdowns in communication.

1.0 Novice

Extremely limited command of the English language. Please note that half-bands (e.g. 4.5) are awarded where a candidate's performance exceeds that described in one band but does not fully meet the next higher level

Descriptions of CLB Levels:

Canadian Language Benchmarks – Writing

CLB 5

Main ideas are difficult to distinguish from supporting details; support provided is not adequate; uses many awkward sounding expressions. There is no clear progression of ideas and the message is difficult to follow. Demonstrates control of simple and compound sentence structures and has frequent difficulty with complex sentence structures; uses simple vocabulary and may have major problems with spelling and punctuation.

CLB 6

Introduces ideas and supports them with some details. There is some awkwardness in expression; arguments may not be clear. Writing causes strain for the reader and the message comes through and can be followed, but often with difficulty. Demonstrates good control of simple and compound sentence structures and is developing ability to use complex sentence structures. Uses basic vocabulary; word choice may be inappropriate; may have problems with spelling and punctuation.

CLB 7

Expresses main ideas and supports them with appropriate details; generally presents a clear point of view with only occasional lapses. There is occasional strain for the reader, yet control of organizational patterns is evident (for example, uses introduction, development and conclusion); uses basic connectors to organize ideas. Demonstrates use of complex sentence structures, with occasional difficulty and demonstrates adequate vocabulary for topic; some errors in word choice and word formation; accurate spelling and punctuation; errors are minor and slightly intrusive.

CLB 8

Expresses main ideas clearly and provides appropriate detailed support; ideas and evidence are generally relevant (only minor isolated problems); conveys a sense of audience although there may be inappropriate use of style and formality. Provides introduction, development and conclusion; has good control of paragraph structure; uses appropriate logical connectors.

Demonstrates control of greater range of complex sentence structures with occasional difficulty and demonstrates adequate range of vocabulary; some errors in word choice and word formation. Demonstrates accurate spelling and punctuation; makes few spelling errors.

CLB 9

Conveys main ideas and supports them with convincing detail; clearly states and argues a position; has developed a sense of audience, using appropriate style and formality throughout. Presents text as a coherent and developed whole; uses wide range of logical connectors to achieve coherence within and across paragraphs. Demonstrates control of a range of complex and diverse sentence structures; uses an expanded range of vocabulary accurately and flexibly; errors in word combinations still occur; grammatical and occasional spelling errors may still occur.

Helpful Hints

1. Get a good night's sleep before the assessment. Arrive at the Assessment Centre a few minutes before your appointment.
2. Don't let the thought of writing an assessment make you too nervous, although a little nervousness is natural and even helpful.
3. At the Assessment Centre, when the Assessment Centre Specialist is explaining the instructions for the assessment, listen carefully and follow all instructions.
4. Ask questions if anything is unclear. The Assessment Centre Specialist is there for that purpose.
5. Most questions in the Institutional CanTEST are in a multiple choice format. You will be required to choose the best answer to a question from several choices. You may mark an answer even if you are not perfectly sure it is right. The Sheridan Writing Assessment is in essay format.
6. If one question is too hard, leave it and go on to the next.
7. If you come to a section in the assessment that you cannot do, don't give up on the entire assessment. There may be parts further on which are easier for you. Keep working.
8. Work steadily and complete as many questions as you can.

Institutional CanTEST Sample Test Questions

SAMPLE Listening Test Dialogue

Below is an example of the kind of dialogue you might hear on the listening test. For this part of the test, the dialogue and the questions are recorded; they are NOT printed in your test booklet. Only the test answer choices will be printed in your test booklet.

Man: Hey, Margaret, do you know where Don is? I haven't seen him all day and he has some lab reports I need in a big hurry.

Woman: Oh, hi Jack. Didn't you hear? Don is off sick. I was hoping to see him myself, as a matter of fact, to talk about that new project we're both working on.

Man: Well I don't know what to do. He must have those reports at home. I wonder if I should drive over to his house and get them. What do you think?

Woman: Oh, I don't think that's such a good idea. If he's sick, he shouldn't be disturbed. Can't you wait at least one more day?

Man: I suppose you're right. But, if we haven't heard anything by tomorrow, at lunch time, I'm going to give him a call, at least.

Woman: Look, Don's a pretty responsible person. I'm sure he'll find a way to get those reports to you on time. Don't worry.

Man: Okay, okay. Talk to you later.

Now here are the questions:

1. *Why does the man want to see Don?*
2. *The man wants to know if the woman thinks he should ...*
3. *What does the woman say about Don?*
4. *What does the man decide in the end?*

Listening Test Dialogue Questions

In your test booklet, you will find the following answer choices. You will mark your answers on a separate answer sheet. Sometimes you will also have to write a short answer.

1. a) To find out how sick he is.
 b) To obtain some lab reports.
 c) To start work on a new project

2. a) go over to Don's house.
 b) telephone don right away.
 c) complete Don's reports.

3. a) He doesn't have the reports.
 b) He has sent in the reports.
 c) He shouldn't be disturbed.

4. a) To wait until the next day.
 b) To call Don before lunch.
 c) To visit Don after lunch.

On the test you will also hear a lecture or an interview similar to the one below. These passages are followed by 6 to 10 questions. Most questions are multiple-choice; there are sometimes short answer questions, too. For these longer passages, both the questions and the answer choices will be printed in your test booklet.

SAMPLE Listening Test Lecture

Vitamin C is the word for today and a popular subject of discussion everywhere. Of course we have to start with the word vitamin. Biochemists gradually realized that some diseases weren't caused by germs or micro-organisms but were caused because there was something missing in the diet. They found that if you didn't include certain foods in the diet, you would get diseases like scurvy or beriberi, and if you included the foods, the disease would disappear.

It was as though there were some substances which the body couldn't make for itself, but for which it had to depend on a food supply, and it needed those substances only in traces. This was first actually stated just about the time of nineteen hundred and one or thereabouts. A Polish-born American, biochemist Casimir Funk, suggested that these substances, required in very small quantities, be called *vitamines* because the first substances located looked as though they had a certain group in the molecule, called the amine group. And "vita" is from the Latin word for "life", so they became *lifeamines*. Well, then, this was all very well except that as researchers learned more and more about these *vitamines*, it turned out that in some of them, there was no amine group, so they dropped the "e" and it became "vitamins." A vitamin is a substance, needed by the body for life, – in small quantities – which the body cannot make for itself.

Well, as we discovered the various vitamins, we had to name each one, and first we couldn't name them because we didn't know what they were chemically, so we didn't commit ourselves. We spoke about vitamin A, vitamin B, vitamin C, and so on. It was much later before the term "ascorbic acid" was introduced. Vitamin C itself turned out to be the vitamin that prevented scurvy. If vitamin C were absent from the diet, you got scurvy. If you restored it to the diet, you cured scurvy. Scurvy takes place only when you're on a very monotonous diet that doesn't include fruits, vegetables, things like that. If you eat nothing but dried biscuits and dried beef you'll eventually get scurvy because these foods don't contain vitamin C. And that means on long voyages, you're risking scurvy. To go back a little in history, scurvy was a serious thing in the late 1700's. Great Britain depended on its navy and its navy was constantly being

knocked out of action by scurvy. There was a Doctor Lindt who found out that certain foods would prevent scurvy and by experimentation he just discovered that limes were a good way of preventing scurvy, and he persuaded the navy to make use of them. It took years and years and years—in fact it was only when the navy was up against Napoleon, where victory was really important, that they decided to try out these limes and all the British sailors were forced to have lime juice every day. The limes cured scurvy. And, as I said, eventually scientists discovered exactly what the chemical was and discovered its structure, and they named it “ascorbic acid.” “Ascorbic” is from the Latin word for scurvy, scorbutus, and the “a” at the beginning is the Greek negative, so ascorbic acid means “no scurvy.”

SAMPLE Listening Test Lecture Questions

1. Around the year 1900, biochemists began to realize that some diseases were caused by
 - a) certain foods in the diet.
 - b) certain substances in food.
 - c) micro-organisms found in food.
 - d) something missing in the diet.
2. Why was the “e” dropped from the original word “vitamines”?
 - a) The word “vitamin” is easier to pronounce.
 - b) Not all vitamins have the amine group.
 - c) People had forgotten the origin of the term.
 - d) Scientists had located more real vitamins.
3. The vitamins were named “A”, “B”, “C”, etc., because
 - a) they were discovered one at a time.
 - b) they were very elementary substances.
 - c) their chemical composition was not known.
 - d) their function was not fully determined.
4. What did Dr. Lindt discover?
 - a) The foundations of modern vitamin theory.
 - b) The chemical structure of vitamin C.
 - c) Foods which would prevent scurvy.
 - d) That long voyages caused scurvy.
5. The British navy started to use limes

- a) as soon as sailors got sick
- b) during the war against Napoleon.
- c) as soon as their effect was discovered.
- d) long before the late 1700's.

6. What is the main topic of this passage?

- a) The history of vitamin C.
- b) The treatment of scurvy.
- c) The different uses of vitamins.
- d) The origin of modern nutrition.

SAMPLE Skimming and Scanning Questions

Below is an example from the Skimming and Scanning section of the reading test. In this section, the questions are quite easy but you have to find the answer very quickly. Rather than read through the passage, it is better to read the questions first and then try to find the answers in the passage. On the official test you will have 10 minutes to find the answers to two passages.

The questions below refer to the newspaper article which is printed on the opposite page.

1. What is this article about?
 - a) The number of foreign students studying in Canada
 - b) The Association of Universities and Colleges in Canada
 - c) University student enrolment across Canada.
2. Approximately how many full-time students attended university in the 1989-90 academic year?
- 3-4. Name two provinces which showed a decline in enrolment in 1988-89.
5. True or False: There was an increase in the number of foreign students enrolled in fulltime undergraduate programs.
6. What was the % of increase in enrolment for full-time students in 1989-90?
7. What is one reason stated in the text for last year's declines?
8. How many institutions are members of AUCC?

Skimming and Scanning Text

University student enrolment passes half-million mark

FOR THE FIRST TIME in history, the number of full-time students at Canadian universities has passed the half-million mark, reports the Association of Universities and Colleges of Canada (AUCC).

This survey, just completed, of fall enrolments for the 1989-90 academic year was conducted by the AUCC in cooperation with the Association of Atlantic Universities (AAU) and the Council of Ontario Universities (COU).

Preliminary figures show an increase in the total number of full-time students of 3.2% over the same period last year, making 1989-90 the tenth straight record year for full-time enrolments. Ironically, the 1980s were widely expected to be a period of declining enrolments.

As in years past, most of this projected increase is due to substantial growth in full-time undergraduate enrolments. Unlike 1988-89, however, all provinces share in the growth: the two provinces that recorded declines in last year's survey, Saskatchewan (-2.4%) and Alberta (-1.5%), report increases of 1.8% and 3.2% respectively. Enrolment quotas, limited growth policies and higher admission standards at several of these provinces' largest universities led to last year's declines. These measures are still in place but with some changes in enrolment ceilings and procedures for applying quotas.

Similarly, the numbers of first year full-time undergraduates are higher in all provinces than they were at the same time last year. In this category also, Alberta and Saskatchewan report significant increases in this year's survey, compared to a decrease last year. The AUCC survey also shows a small increase in the number of full-time undergraduate foreign students studying in Canada.

The Association of Universities and Colleges of Canada has as its membership 88 universities and university-level colleges. It promotes cooperation among institutions of higher education and represents the university community to governments and to national and international bodies concerned with university education and research.

SAMPLE Reading Comprehension Text

The permanent conversion of farmland to urban and industrial development is a major concern today. Accurate data on the rate of such losses are not available, but estimates for the area of land absorbed for every increase of 1,000 in the urban population vary from about 10 to 400 hectares. The higher figure includes urban fringe land alienated from agriculture by land speculation and resulting high prices. If an average figure of 80 hectares of every increase of 1,000 in the urban population is used, the projected permanent conversion of land to urban development in Quebec and Ontario is 300,000 hectares and 500,000 hectares respectively. More than half of this land is good agricultural land in climactically favourable areas. Around Montreal, for instance, 8,700 hectares of the best agricultural land in Quebec is being lost to development each year. Equally serious may be the loss of farmland to low-density rural housing, but no firm data are available.

There is a similar trend in Western Canada. About 40,000 hectares of farmland were lost to urban development between 1962 and 1972. In Alberta, over 16,000 hectares of prime land were absorbed in the course of seven years by the cities of Edmonton and Calgary, and there is evidence that smaller towns on the Prairies are consuming farmland at up to twice the rate, per unit population, of the big cities. The areas mentioned may not seem impressive in relation to the total area of farmland in Canada, and it is true that few statistics are available on the rates of loss of farmland. However, the picture is clear enough to provide the basis for rational choices.

It must be remembered that only tiny areas of Canada, less than one per cent, have climates and soils suitable for the production of corn and soft fruits. Most of these valuable parcels of land are in the path of rapid urban and industrial growth. Productive farmland close to the city is basic insurance against future events such as food shortages and high prices that would result from: (a) a dramatic increase in the world's population; (b) a climatic shift such as a decrease of even a degree or two in the mean annual temperature; (c) a series of dry years; or (d) increasingly high transportation costs due to energy shortages.

Because of its "greenbelt" character, farmland is also of immeasurable aesthetic value. City dwellers will often drive for miles to experience an orchard in blossom and enjoy the rural scene. Wildlife ecologists have persuaded us of the value of preserving endangered species like the whooping crane and of the necessity of selecting pipeline routes that will not disturb migrating animals like

the caribou. Surely it is not too much to expect that we recognize the necessity of preserving for agriculture the prime farmland close to cities such as Montreal, Toronto and Vancouver.

Reading Comprehension Text Questions

1. The main idea of this passage is that in Canada
 - a) urban and industrial growth should be slowed down.
 - b) losses of farmland constitute an important problem.
 - c) accurate statistics on farmland conversion are needed.
 - d) prime farmland is scarce in areas of good climate.

2. Why do estimates of the rate of farmland conversion vary?
 - a) There is no uniform definition of "farmland".
 - b) The urban population is growing at such a rapid rate.
 - c) Urban fringe land is not always included in the figures.
 - d) Experts have not devoted enough attention to the problem.

3. What would productive farmland near cities do?
 - a) Prevent possible food shortages.
 - b) Keep present food prices high.
 - c) Encourage even more urban growth.
 - d) Increase the value of urban fringe land.

4. In smaller towns on the Prairies, farmland is being consumed
 - a) in proportion to increased land speculation.
 - b) at the rate of 16,000 hectares every 7 years.
 - c) principally by low-density rural housing.
 - d) at a faster rate than in the big cities.

5. The amount of agricultural land lost does not seem "impressive" because
 - a) there is such a large amount of farmland in Canada.
 - b) the problem only affects Eastern Canada.
 - c) only crops such as corn and soft fruits are affected.
 - d) people do not know the real extent of the problem.

6. Maintaining urban fringe land for agricultural use will avoid problem associated with
 - a) a rise in the mean annual temperature.
 - b) soil unsuitable for production.
 - c) rising transportation costs.
 - d) an excessive amount of moisture.

7. The author concludes by asking readers
- a) to propose solutions to the problem.
 - b) to learn to appreciate the aesthetic value of farmland.
 - c) to refrain from disturbing the animals when they visit farms.
 - d) to support the preservation of farmland near big cities.

SAMPLE Cloze Test Passage

In the text below, words have been replaced with blanks numbered from 1 to 25. First read through the text to get the general meaning. Next, re-read the text, choosing for each blank the word on the next page that best fits both the grammar and the meaning.

The Conversation Class

The majority of students learning English are primarily interested in speaking the language. Unfortunately, in most English courses, far more _____ (1) is paid to the skill of writing _____ (2) to speech. Yet, in the end, a _____ (3) knowledge of English will be judged _____ (4) the world at large not on his _____ (5) to write the language but _____ (6) speak it. As far as the teacher _____ (7) concerned, part of the difficulty comes _____ (8) the fact that conversation lessons are _____ (9) at all easy to conduct. Each _____ (10) must be carefully prepared, otherwise the _____ (11) will obtain little or no response _____ (12) his class. No teacher would expect _____ (13) students to attempt written composition before _____ (14) had mastered a large number _____ (15) basic sentence patterns and learned _____ (16) write simple, compound and complex sentences. _____ (17), many teachers will try to start _____ (18) discussion with a group of students _____ (19) providing the students with any preparation _____ (20) all. During most classes of this _____ (21), the student has to struggle to _____ (22) complex ideas in English. The teacher may _____ (23) hesitant to correct him because this _____ (24) interrupt the flow of conversation. Even _____ (25) he does correct him, the student will learn very little. Sometimes the whole class breaks down and the teacher ends up doing all the talking.
