MEMORANDUM TO: Community Partners

SUBJECT: Student Field Placement and COVID-19

Dear Community Partner:

Sheridan has been closely monitoring the COVID-19 issue with a particular view of supporting our student's and the community's safety and well-being. To that end, we have made the difficult decision to cancel all field placements within the Faculty of Applied Health and Community Studies (FAHCS). Effective immediately, students will not attend field placement until further notice. While we understand that this decision has many implications, the health, safety and well-being of our students and the community remains our highest priority.

As we continue to monitor and navigate this evolving situation, we will be in close communication with our partners about the future of our student's field placement and welcome the opportunity to collaborate on strategies to support our learners and partners during this transitional time.

We would like to take this opportunity to express our sincere gratitude and appreciation for the exceptional learning experiences our partners have afforded our students. Our community partnerships are invaluable to Sheridan and instrumental to our student's learning and success.

For up-to-date information regarding Sheridan's response to COVID-19 and for links to public health information, please see Sheridan's [COVID-19](#) webpage.

As always, our FAHCS experiential learning team is here to support you.

Kind regards,

Lindsay Anderson, RN, PhD
Director, Clinical and Experiential Learning
Faculty of Applied Health and Community Studies
