

Sheridan | Faculty of Applied Science and Technology

March 20th, 2020

Dear Apprenticeship Student,

Sheridan has been actively monitoring and responding to the COVID-19 pandemic since early January and has made decisions based on the best guidance available from federal, provincial and municipal health authorities. Sheridan suspended classes for a one-week period to review and, where appropriate, adjust curriculum for alternate modes of delivery. Our goal was to contribute to social distancing efforts to limit transmission of the virus.

Sheridan is continuing to work collaboratively with the other Colleges that offer apprenticeship programs as well as the Ministry of Labour, Training and Skills Development. Given the prominence of hands-on learning in our apprenticeship programs, apprenticeship classes continue to be suspended for the week of March 23, 2020. Sheridan will communicate completion plans with each student as soon as we have more information.

If you have any questions, please do not hesitate to reach out. Our contact details are below. Alternatively, you may contact Laurie McKendry, Apprenticeship Business Support Officer, at laurie.mckendry@sheridancollege.ca.

Kind regards,
