

Subject: NEW Travel Advisory – All International Business OR Work – Related Travel Suspended for Academic and Non-Academic Activities

Date: Monday, March 9, 2020 at 2:32:34 PM Eastern Daylight Time

Dear Sheridan Community,

As the COVID-19 outbreak continues to evolve internationally, Sheridan's leadership team has been continuously monitoring the situation. We have now made the determination to suspend, effective immediately, ALL international travel by staff and students for both academic and non-academic activities until – at a minimum – September, 2020. An exception will be made for travel to the continental United States, however, such travel will be reviewed on a case by case basis and will be subject to change without notice.

Please speak to your manager or academic advisor/faculty regarding any costs associated with cancellation of work-related expenses.

Members of the Sheridan community who are currently abroad on Sheridan business will not be recalled to Canada at this time, but this is also subject to change.

Personal travel to international destinations is of course at the discretion of individuals. We strongly recommend that you monitor the Government of Canada's [travel advisories](#) website before undertaking a journey. Travellers returning from a COVID-19 impacted area should:

- Monitor their health for flu-like symptoms (fever, cough and difficulty breathing) for 14 days upon return
- If flu-like symptoms develop, contact Telehealth Ontario at 1-866-797-0000 or their [local public health unit](#)

The safety and wellbeing of our entire community is our highest priority. We thank you for your patience and understanding as we continue to navigate what this outbreak means for all of us at Sheridan.

We will continue to update you as further information becomes available. In the meantime, you can visit our dedicated [webpage](#) for more information. Further questions can be addressed to careandwellness@sheridancollege.ca.
